

CREATION RESEARCH NEWS

NEW ABORIGINAL MURAL (below) going up at our Creation Discovery Centre (Acacia Ridge). Pray as we continue to increase our outreach on these vital issues at both our Acacia Ridge Museum and Jurassic Ark. Aboriginals arrived in Australia only after Noah's Flood. They have not been here for 65,000 years and presenting the Gospel too them means it is vital they see that real history involves their ancestors getting off the Ark and really descending from Adam and needing Jesus foremost - not government grants.

Thanks to those who have asked about replacing our ailing 17-year-old AUSSIE MINISTRY Car. We have received a total of \$15,500 donations towards this. Not surprising is that's what we paid for the car many years ago, so pray our car watchers will be able to find a good reliable replacement for this workhorse.

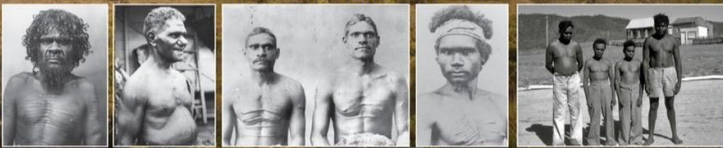

From Adam to Australia for Jesus sake

"26 God has... 'made of one blood all nations of men for to dwell on all the face of the earth, and hath determined the times before appointed, and the bounds of their habitation; 27 That they should seek the Lord, if haply they might feel after him, and find him, though he be not far from every one of us..." Acts 17:26-27 (KJV)

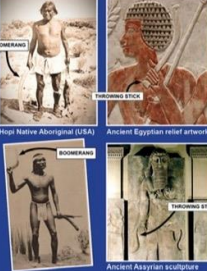

Welcome to Country in the name of the Traditional Owners - Father, Son and Holy Spirit.

Note variation seen in Aboriginals prior to 1880.

AUSSIE CREATOR KING Road Trip tour in Full Swing

IMPORTANT PROGRAM CHANGE: Craig Hawkins in Toowoomba: Please note that the Sunday morning service where Craig was to speak on July 14th at Toowoomba North Church of Christ has **MOVED** to Highfields Church of Christ (Toowoomba) 9.30am service. The Saturday evening meeting at Toowoomba North Church of Christ 13th July, is still on.

Craig Hawkins and Creation Discovery Centre volunteer Derek Wells departed on their long anticipated speaking road trip through Victoria, NSW and Queensland. So far, a thousand people over 23 events have heard various creation-based messages and enjoyed the fossil displays including 500 school students in southern Victoria and central NSW.

The continuing deliberate lie of feathered dinosaurs was seen at Melbourne Museum with fully feathered velociraptors on display and various other imagined feathered dinosaurs. Parents beware, this lie is being pushed at all the major museums.

Sessions at Encompass Church in north Melbourne and Connect Baptist in Ballarat were well received and it was wonderful to meet the people there. We really enjoyed the energy and fellowship at Rock Church at Portland and Warrnambool who displayed an exciting desire to reach out to their local community. A group from the church was able to explore the Petrified Forest and look for some fossils on the coastline where we found a lovely fossilized oyster.

We are currently in central Queensland and look forward to exploring some of the dinosaur sites from Eromanga to Winton over the next few weeks. If you want to track the trip more closely hook on to the Tasmanian Creation Discovery Centre Facebook page.

USA REPORT FROM DR GLEN SHOWN teaching kids how to find fossil shark teeth as the Creation Station has been on display three times over the last two months.

Twice it was open to the public in Jamestown, TN. Once during an outreach event called Hair on the Square for the homeless in which booths were set up providing free hair-cuts, free food and free clothing. The Creation Station served as the discipleship outreach to the community in which the fossils and other science exhibits were used as evidences for the truth of God's Word which lead to discussions of the gospel. The second event was in the Walmart parking lot. The third was held at the Wilson's home and intended to minister to a family that has been traveling around the USA collecting Bibles and then traveling throughout Africa to distribute these Bibles to people groups in remote areas. The ministry is called Project Bible Runners. The founders, Owen and Jess Sweitzer and their 5 children came to the Wilson's along with two other couples in this ministry. (pictured hunting shark teeth above) They got to see the evidences for the truth of God's word which not only equipped them for defending the hope that is in them but also encouraged them by the love extended by Creation Research ministry. GOOD NEWS UK UPDATE RE FOSSIL CAMP FROM JOSEPH

The ups and downs of ministry continue as we prepare for our upcoming 'Rocks Cry Out' convention and Fossil Collecting at Fossil Heaven in Whitby. After a rather stressful week once we found out that through no fault of our own, we had no campsite to go to! The LORD is good, however, so now we are back on track for the convention, which will include 5 days of fossil hunting, workshops and seminars, featuring an international speaker panel, including Dr Diane Eager, a virtual John Mackay, and Prof Andy MacIntosh. There are still some camping pitches available, so book now to attend the convention!

Great fossils like this are still to be found at Whitby. Pray for the health of all speakers including Aussie in the UK Dr Diane Eager who has not been well.
