

Battlefield Update

2 JANUARY 2025

We shall fight on the beaches, we shall fight in the fields and in the streets, we shall fight in the hills; we shall never, never, never surrender.

JG Commentary

Friends, I hope you all are having a wonderful Christmas season. My family and I pray you all have a blessed 2025. I have received a number of messages through my website, emails, and some calls asking me why it has been so long since I have sent out this email. I thought I would take a moment to share some thoughts on that for those interested...

For those of you who have been following me for quite some time, you know that every administration since and including 9/11/2001, has failed to (1) understand the true nature of the war in which America is engaged, and (2) identify the enemies we are fighting and the doctrine that animates them. Under the Biden administration, senior government officials, including Mr. Biden himself, aid and abet enemies of the United States to include jihadi and communist organizations and hostile foreign powers. For their part, republicans continue to go along to get along. Among the key people chosen to lead the incoming administration, there is little to no understanding that to win the war you must first know you are in a war, then identify the enemy, and then vanquish the enemy. Changing policies and fixing issues may make us feel good, but that won't win this war.

The Islamic and communist Movements are ramping up their efforts as I have reported over the last year, and especially the last 6 months. In both Movements there is in-fighting primarily centered around whether or not to go full violent now or continue to erode the centers of power and undermine what is left of the federal system.

As can be seen from the events of the last week or so around the world, from Germany to America to New Zealand and other nations we see increased attacks while Western nations imprison their people for speaking truth and defending natural rights, while they simultaneously support and advance the Islamic & communist Movements.

As all of this is happening, citizens of the West, and America in particular, continue to sit on their butts waiting for Mr. Trump to be inaugurated. Until well-informed Patriots decide to engage the enemy in their local counties and deal with them, this war will be very difficult to win.

Our adversaries are over 90% of the way to achieving victory in this war and many Americans are still checked out. To be clear, I do not mean many Americans do not recognize there are major problems or that our society is being attacked from people who hate us. What I am saying is that a vast majority of Americans still discuss the current situation in terms of "woke" policies and "radical Islamist supremacists" when in fact, as you all know, there exists in America identifiable communist & Islamic Movements with doctrine, strategy, hundreds of lines of operations, and thousands of organizations advancing their objectives daily. Our enemies are intentional in their actions, well coordinated, and being directed by hostile foreign powers who are waging assymetric war against the United States. All the while our leaders stand before the cameras pounding their chests because they "grilled" some particular bureaucrat while the commies and jihadis are steamrolling our nation.

In the incoming administration we have a Vice President who believes that true Islam is okay and non-violent, and key national security personnel who believe 99.9% of muslims do not support Al Qaeda (Gorka) and that true Islam has nothing to do with the attack in New Orleans (Grenell).

The reason our team focuses on training citizens and local officials at the county level is because that is where this war will be won or lost. Since the election most locales are still celebrating and sitting on their hands waiting to be saved. That is a fool's errand.

And that is why I decided not to waste time writing more articles detailing the updates on the enemy and how they are advancing and what they are up to. It did not appear to me that it was a good use of my time. In the wake of the attacks across Europe and on New Year's Day in New Orleans, there are a lot of people listening. I am hoping to provide clarity about the true nature of the threats we face and what must be done to win this war.

Thanks for sticking with me and the team over the years. For you newcomers, hold on. The ride may get bumpy.

The Global Jihad Intensifies - Target New Orleans

by John D. Guandolo

On Friday December 20th, a Saudi doctor plowed his vehicle into a Christmas market in Germany killing 2 and wounding approximately 2 dozen others. In New Zealand on New Year's a man - who the police & media refuse to identify at the time

of this article - plowed his car into 2 police officers killing one and wounding the other as well as several other people.

At approximately 8:39 AM in Las Vegas, Nevada, a Tesla Cybertruck exploded outside of a Trump hotel. The "driver" has been identified as an active duty Special Forces soldier. This investigation is ongoing to determine if and how this might be related to all of these other attacks.

At approximately 3:15 AM on January 1st in the French Quarter of New Orleans, a sharia adherent muslim named Shamsud din Jabbar drove his pickup truck into a crowd before exiting his vehicle with a weapon and began firing killing 15 and wounding nearly 3 dozen others. Jabbar was killed at the scene by police.

Here are the parts of the story you should know:

1. Jabbar lived in Houston, Texas, was born in the U.S. and served in the U.S. army.
2. Texas has had more jihadi attacks since 9/11/01 than any other U.S. state.
3. The largest terrorism financing trial in American history was adjudicated in Texas [*US v HLFDR, Northern District of Texas, 2009*]
4. The #2 hub for the terrorist group Hamas is Dallas, Texas.
5. I rate Houston, Texas as the #1 worst city in America for the jihadi-communist network/threat.
6. The leadership of Texas has done nothing to dismantle these hostile networks or address them in any way - other than outreaching to a number of the hostile organizations.
7. The vehicle Jabbar drove was brought across the U.S. southern border indicating likely exterior support. The FBI says Jabbar had no accomplices - less than 24 hours after the attack.
8. Improvised Explosive Devices (IED's) were planted around the area of the attack.
9. Despite the fact Jabbar's truck flew the black flag of jihad with the Islamic shahada on it on the back of his truck, the Assistant Special Agent in Charge of the New Orleans FBI Field Office gave a press conference and stated the attack was not a terrorist attack. Shortly thereafter, FBI put out a notice on X that FBIHQ considered the attack a "terrorist" attack.
10. The brother of the jihadi told the press they were raised "Christian" but then Shamsud Jabbar converted to Islam. Shamsud's brother added that true Islam does not teach that kind of violence as demonstrated by the New Orleans attack.

11. Shamsud Jabbar lived a few minute walk from Masjid Bilal, a mosque in Houston controlled by the Islamic Society of North America (ISNA). ISNA was identified in the US v HLF RD trial as a Muslim Brotherhood organization that directly funds the terrorist group Hamas. ISNA continues to operate and its leaders work with the military, Members of Congress, work with national security staffs, and drive most of the interfaith outreach efforts in the United States.
12. Approximately 8 years ago I briefed the then Attorney General for Louisiana Jeff Landry about the significant jihadi network in his state. I presented evidence, specific details about organizations and their activities, and recommended several prosecutorial actions which could be taken immediately. Landry, now the Governor of Louisiana, declined to take any action noting if he did he would never be elected to any office again. It is worth noting that the Oath of Office legally mandates fidelity to the U.S. Constitution and, in this case, the Constitution of Louisiana - not to the possibility of future jobs. In my professional opinion, Landry's inaction constitutes criminal negligence and he is at least partly responsible for the deaths of those killed on January 1st in New Orleans.
13. I conducted 5 minutes of research - literally - and discovered there are at least 9 jihadi organizations located within 5 miles of the attack site in the French Quarter of New Orleans. [Note: They are: Islamic Center of New Orleans; Masjid Bilal ibn Rabah Center; North American Islamic Trust; Masjid ar Rahmah,; Muslim Students Association; Masjid ur Rahim; Masjid al Islam; ICNA Relief New Orleans; and the Muslim Association of New Orleans. This is not an exhaustive list.]
14. Since the HLF trial was adjudicated in 2009, no federal agency has acted on the significant evidence that all of the prominent Islamic organizations in America are engaged in a criminal conspiracy to: overthrow the U.S. government; materially support terrorism; and commit murder. Two of America's "best governors" - Greg Abbott in Texas and Jeff Landry in Louisiana have done nothing to dismantle the significant jihadi networks in their states.

Consider all of this as you contemplate how America can win this war. I have been doing this as long as anyone else in America and I believe this war will be won or lost at the local level.

INTO ACTION TRAINING

John Bennett and I, as well as the rest of the team, continue to train communities via our "Into Action" training, and are having very positive impacts at the ground level. We re-structured the training so they are about 4 hours on a Friday evening, and all day Saturday, making it easier for more people to attend. We also conduct a 1 day program as well.

I cannot encourage you more to get your community together and bring this training in so you can fortify your county and be as well prepared as possible for the continued degradation of our society.

For more information on the training, you can contact me via my website at www.JohnGuandolo.com

Staying in Touch

You can find me on X (twitter) **@JGuandolo54271** and I recommend you follow me there. I put out a lot of information daily on the war, the Islamic & communist Movements, and my interviews.

God bless you all.

John D. Guandolo

"Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty, or give me death!"

Patrick Henry, March of 1775, St. John's Church in Richmond, Virginia
