Fauci 'Predicts' the 'Next Outbreak' Is Coming Soon, Warns of 'Significant Morbidity'

Dr. Anthony Fauci has made a chilling "prediction" that a new rapidly spreading "respiratory disease" will soon strike the human race. Fauci also suggested that President Donald Trump's policies will make the next pandemic "more dangerous" than Covid. He was discussing the looming "next outbreak" during a discussion before an...

AG Bondi Suspends DOJ Lawyer for Not 'Zealously Advocating' Trump's Deportation Agenda

Attorney General Pam Bondi has suspended a Department of Justice (DOJ) lawyer for not arguing strenuously enough on behalf of President Donald Trump's efforts to deport dangerous illegal aliens. Erez Reuveni was placed on indefinite paid leave over his performance in a case against allowing an illegal alien deported to...

Three More Deaths from Hantavirus Emerge After Rare Disease Killed Gene Hackman's Wife

Three more people have died in California from hantavirus, the same rare but serious mouse-borne disease that killed Gene Hackman's wife, Betsy Arakawa. Arakawa and Hackman were both found dead in their New Mexico home in February. The deaths all occurred in the rural California town of Mammoth Lakes. Public...
