We shall fight on the beaches, we shall fight in the fields and in the streets, we shall fight in the hills; we shall never, never, never surrender.

John Guandolo Interview with Lara Logan

Friends, I am grateful to Lara Logan for doing a long format interview with me and publishing the full interview which details the true nature of the threat to the United States from the communist and Islamic Movements, how they do what they do, the penetration of our system by these hostile actors, why sharia is a threat to citizens, what is happening in Texas and what is to be done about all of this.

You can see the full interview [HERE](#). Ensure you back the interview up to the beginning!

The SOLUTION

The way forward is at the **local level**. It always has been. The entire war will be won or lost depending on what American communities do at the county level. President Trump is proving to be inept regarding the Islamic Movement - he invited a Hizbollah leader to his inauguration (Imam Hussein - thankfully thanks in part to me and my team we got that cancelled), he named a jihadi to be the U.S. Ambassador to Kuwait, he named a jihadi to be the U.S. Attorney to Los Angeles, he calls Qatar and Saudi Arabia "good" and is working business deals with them, and relies on people like Ric Grenell to give him advice on these matters. My professional assessment is that Ric Grenell is an agent of the Islamic Movement. A preponderance of his actions support this assessment. He is the one who brought the Hizbollah operatives/leaders on stage with Mr. Trump in Michigan. He is the one intervening to protect jihadis when people actually identify suit-wearing jihadis.

Grenell continues to make public comments which obfuscates published Islamic doctrine and strategy which makes clear its intentions, lines of effort, modus operandi, and courses of action.

The solution is having a solid team of citizens trained to identify and deal with organizations and leaders of the communist & Islamic Movements to lawfully flush these enemies of liberty out of your county. John Bennett and I run the only organization in America training communities to do this. Bring INTO ACTION to your town now.

Jihadi Movement in Texas

Much has been said publicly about several of the muslim communities being built or proposed across Texas. I want to provide some details to all of you to understand how dangerous the situation is as well as giving some information to help Texans - and others where this is happening - laser focus on the threat and get it out of your communities and states.

The primary focus of the discussion in Texas is EPIC City planned for a 400+ acre property in Josephine, Texas northeast of Plano where the East Plano Islamic Center (EPIC) is located. Building these muslim only communities is, in fact, a way for a large muslim community to claim large areas for Islam. However, while many think this is a new thing, those of you who follow my work know that the concept of "Sacred Space" in Islam is real and has consequences. For instance, when a mosque is built that mosque and a 3 mile radius around that mosque is all claimed for Islam. That land will always be considered Islamic land. So when you see a new mosque being built, the Islamic community is claiming land. The only thing left to do is occupy it. They do that by moving in to the homes closest to the mosque and work their way outward in that circle. Funded by Qatar and Saudi Arabia, the mosque leadership can offer non-muslims large sums of money for their homes to entice them to move out, but they will resort to threats if people refuse to move.

In the same way, EPIC City, like the several others planned for communities around Texas, is a way to claim land for Islam.

I was asked recently asked by a legislator in Texas, "Why are the East Plano Islamic Center (EPIC) & EPIC City a threat to Texas & Texans? I offer some answers to this question to all of you.

1) Both the East Plano Islamic Center (mosque) and the EPIC City project are led by Yasir Qadhi, a Muslim Brotherhood (MB) Islamic Scholar. The MB By-Laws state its purpose is to "fight the enemies of allah" until an Islamic State is established & everyone is forced to live under sharia.

2) 100% of published sharia mandates warfare against non-muslims until the world

is subordinated to sharia/"allah's divine law"

3) Yasir Qadhi is the Chairman of the Fiqh Council of North America. Evidence in the largest terrorism financing trial ever successfully prosecuted in American history (US v HLFDR, Dallas, 2008) reveals the Fiqh Council of North America is a Muslim Brotherhood org whose purpose is to ensure sharia compliance.

4) Per Islamic doctrine, the building of that mosque & EPIC City is an overt statement the muslims are claiming all that land for Islam and barbaric sharia.

5) Both the East Plano mosque & EPIC City mandate zakat collection from all muslims. Per all sharia, at least 1/8 of all zakat collected goes towards "Islamic military operation" - ie warfare against Texans.

6) Barbaric sharia - being advanced by Yasir Qadhi, East Plano Islamic Center & EPIC City - allows muslims to rape non-muslim women.

7) The designated terrorist group Hamas is an INHERENT part of the Muslim Brotherhood, which is behind EPIC City.

I hope this is helpful for you all to put this significant advancement by the MB/Hamas in Texas in context.

I do want to say thank you to the many Train the Trainer (TtT) graduates who have been and continue to work diligently across Texas to educate fellow Texans, judges, legislators, city/county council members, precinct chairs, and many others about the threat of the Islamic Movement in Texas. The Texas Governor and Attorney General have addressed these matters as a result of the work of many TtT grads who have been slogging it out for a long time. Thank you for all you all do for Texas.
