

3,400 new immigrants every day in February

UNITED AUSTRALIA PARTY

We were told migration was coming down, but it's turned out to be yet another Labor lie.

The latest immigration figure is staggering. Over 96,000 new immigrants in February alone - that's more than 3,400 a day! Let that sink in.

This government is engaging in the wilful destruction of a nation. Not only are they fuelling a housing crisis, they're eroding our national identity to the point where we will have nothing left.

The question has to be asked of all Australians now - what will it take for you to become active? What will it take to become mobilised and mobilise others?

This government has to go at the next election and we need everyone on board to make that happen. Tell your family, tell your friends, tell your colleagues.

Australians are being taken for fools by the people whose wages we pay. Enough is enough.

Meanwhile, leading economist Leith van Onselen, says "Australia's long suffering renters should be marching in the streets against the federal government", and he's right.

When will young people who vote on the left side of politics realise that the government and policies they vote for are in fact destroying their immediate and long term prospects? It's literally like turkeys voting for Christmas.
