There was no such state called Israel until 1947 when the United Nation (UN) allowed Jews scattered around the world to establish the Zionist State on the land of the Palestinians, Christians and Muslims.

This declaration was a disaster for the local residents of Palestine, but they were helpless to protect their ancestral home and land as they had not enough power to face the British and American backed foreign occupiers.

When the local residents tried to resist the occupying Zionists, they were murdered in thousands and forcefully expelled from their centuries old homes in tens of thousands creating fear and havoc among children, women and men.

Suddenly, these innocent people lost everything they had and became refugees in their own homeland under the control and mercy of the occupiers with the blessings and full backing of the USA and UK.

In the first Naqba (catastrophe) in late 1947 and May 1948, over 70,000 Palestiians of over 530 villages were forcefully kicked out of their homes to make space for the foreign Zionist occupiers.

The only crime these innocent Palestinian people, Christians and Muslims, committed is that they were born and brought up in the original and legitimate country of their ancestors.

No law or resolution on earth should have the authority to kick out these people from their homes and land under any circumstances. These persistent attacks and terrorist acts were aimed at expanding the boundary of the Zionist state by forcing the Arabs to leave their homes.

In 1940, about 6% of the land was owned by the Jews, and 94% by the Arabs. So, by any standard, Palestine was an Arab land, predominantly owned and inhabited by Palestinians.

However, on 14 May 1948 the state of Israel was declared by David Ben-Gurion ending the British Mandate of Palestine. By that time, the Israel occupied 55% of the Arab land making Palestine much smaller than the colonial settler state.

After the 1967 Arab-Israel war, the Zionist state further expanded its boarder occupying 78% of the original Palestine. During the six-day war Israel captured the West Bank, East Jerusalem, Gaza, Sinai from Egypt, and Golan Heights from Syria.

As a result, lots of Arabs were driven out of their ancestral lands creating new wave of hundreds of thousands of new refugees in their own land.

So, the history of Israel is the story of land grabbing day by day with a clear view to annexing whole Palestine into the Zionist state eliminating all Palestinian Arabs by any means including systematic torture and non-stop persecution.

It has attacked every one of its neighbours – Jordan, Lebanon, Syria, Egypt, Iraq, Sudan, Iran beyond Palestine. Now, Zionists have declared maps of greater Israel that includes parts of Saudi Arabia along with Jordan, Lebanon, Syria, Egypt, UAE, and Iraq.

So, none of the Arab countries are safe from the aggressive might of Isarel backed by the US money and army. In fact, Israel is the only country on the earth without specified border, and the motive behind this is nothing but to expand its occupation.

In 1956, Israel attacked the Suez Canal in Egypt with the support of Britain, and France. The USS Liberty was attacked by Israeli aircraft and torpedo boats on 8 June 1967, in international waters off the Sinai Peninsula. It was reported that 34 American service members were killed and 171 were wounded in the unprovoked attack.

During the 1982 Lebanon War, Israel launched Operation Peace for Galilee inside Lebanon to oust the Palestine Liberation Organisation (PLO) fighters and leadership from southern Lebanon and Beirut.

There were no Hezbollah or Hamas or Iran in Lebanon at that time. All this was perpetrated under the cover of Israel has the “right to defend itself” or “right to exist”. Again, Israel attacked Lebanon in 2006 on the pretext of eliminating Hezbollah.

The occupying Zionist state repeatedly attacked the Arabs in Gaza in 2008-09, 2012, 2014, and 2023-present.

The whole world knows that Israel has nuclear bombs. Yet, Israel has no clear-cut answer on the matter. Israel has not sign the Nuclear Non-Proliferation Treaty (NPT) of 1968.

At one point of time or the other, Israel has attacked everyone one of its neighbors, yet it can have a nuclear arsenal without being answerable to the UN or any other international agency. This is another example that Israel is above the international law.

Israel does not allow international media to enter occupied Gaza and West Bank in order to hide their genocidal activities from the world.

The recent report of the New York Times on widespread raping of Palestinian Arabs in the prison by dogs is the tip of the iceberg.

The harsh treatment of Israel led by Minister Ben Gvir of the peace activists of Global Samud Flotilla who wanted to distribute much needed food and medicine in the Gaza Strip has been documented.

Allegation of sexual abuse and physical torture on the internal volunteers in the Israeli prison are clear evidence of how worse the Zionist state treats the Palestinians.

For decades, Israel and its lobby in powerful nations, especially in politics, media and administration, were able to shut any opposing views and stop the criticism of all barbaric acts of the Zionist state.

No one with moral conscious agrees that Isreal is telling the truth and everyone else is lying including the UN Secretary General, ICC, ICJ, UNRWA, UNICEF, WHO, Journalists, Red Cross, World Bank, Gaza Doctors, Human Rights Watch, Amnesty International, UN Special Rapporteur etc.

Even, once great Make America Great Again (MAGA) influencers are now revealing its hidden truth.

Online activists like Tucker Carlson, Megyn Kelly, Alex Jones, Candace Owens, Jennifer Welch, Ashley St Clair, Marjorie Taylor Greene are deserting MAGA to oppose the current “Israel First” policy of US President and his administration.

Once they are finish with Gaza, Israel will take over the West Bank, and they will occupy other neighbouring Arab states, finally creating their Greater Israel.

In the face of increasing change of public opinion against the Zionist state, despite investing huge amount of money, the Israelis are using their last weapon of “anti-Semitism” using the term exclusively to Jews and equating it to the Zionist state engaged in acts of genocide in Gaza.

It is to be noted that the legitimate criticism of the apartheid warmongering Netanyahu government and its policy of aggression against all its neighbours must not be mixed anti-Semitism.

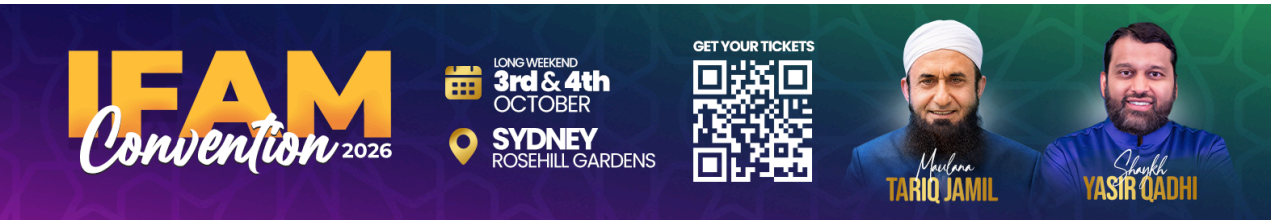

Criticism of a government whose ministers are under arrest warrants by the International Criminal Court (ICC) is no way anti-Semitism. All Jews are not Zionists, and many Jews are against the genocide of Arabs in Gaza and unprovoked attacks on Lebanon and Iran.

Even during the ceasefire, Israeli army has killed over one thousand caged people in Gaza and several thousand innocent people in Lebanon. The Zionist state is destabilising the Middle East again and again without any real deterrence from the UN and international community and it is hurting the world economy seriously.

Like other 157 states, including all major western nations except USA, Australia has rightfully recognised the statehood of Palestine.
